SKILLS

- Proficient in React, NodeJS, MongoDB, SQL, TypeScript
- Proficient in various technologies in the MERN stack
- Very good communication skills
- Willing to put in effort
- Very fast learner

I am currently a sophomore Computer Science student in the University of San Carlos. I started taking interest in website development in August of 2022, and I have since taught myself HTML, CSS, JavaScript as well as various technologies such as React, NodeJs, and etc. I am always looking to learn new things, expand my stack, and improve my skills.

I am currently self-learning NextJS and DevOps technologies such as Docker. I believe that the best way to learn is to work, and that is why I am willing to work as hard as I possibly can.

RELEVANT EXPERIENCE

CHIEF OPERATIONS OFFICER 2023-2024
